## Social Network

tusharkashyap2768

tusharkashyap2768

## Programming Skills

C++14. C. JAVA

HTML. CSS. JAVASCRIPT

REACTJS.

## Coding Profiles

- code chef
- Geeks for Geeks
- Hackerearth

## Technical Skills

- Data Structures, OOPS
- Operating Systems, DBMS
- Web App development
- Design and Analysis of Algorithms

## Tools

- OS: Windows10,11,Ubuntu
- Editors: VSCode,Pycharm
- Database:Firebase,MySQL
- Online Editors: Repl.it

## About Me

CSE undergraduate with good knowledge of software development and data structures, looking for a Software developer Position. Bringing good knowledge of React.js, firebase, Node.js, express and good communication skills.

## Education :

- 2004 – 2016 **High School Education (10Th)** Shiksha Niketan, Jammu  
Percentage – (96.6/100) And 12th position in overall jammu kashmir.
- 2016 – 2018 **Higher Secondary School Education (12Th)** Shiksha Niketan, Jammu  
Percentage – (90.8/100) And (100/100) in Computer Science subject.
- 2019 – 2023 **Bachelors of Engineering** Chandigarh University, Mohali  
Current Semester – 5th. And Current Cpga – 7.68.

## Self Learned Projects :

currently

### FireGitHubBase

ReactJS

Here, I created a User Authentication login portal with firebase using react.js and once the user is logged in, there I designed a simple GitHub Requestor using GitHub API and you just have to type github username of anyone then you can see any github account its repositories and manymore .

- LIVE PROJECT
- SOURCE CODE

June – July  
2021

### Online Resume Generator

Dom Manipulation, Javascript

Here, I created a Online CV/Resume Generator Website using intermediate javascript and concept of document object model, there I designed a simple template form where you have to fill your details and just by click generate your Resume will be ready with amazing correct format and also by clicking print button you can download it also .

- LIVE PROJECT
- SOURCE CODE

August –  
September  
2021

### My Own Portfolio

Html,css,Javascript,reactjs

Here I created my ownportfolio website using html,css,javascript.This is having many sections and when you go to project section you will see all my mini projects and side projects which i have made while learning you can also see them live by clicking live project button and also see source code by clicking see code button.

- LIVE PROJECT
- SOURCE CODE

## Extra Activities And Achievements :

- Solved around 100+ coding probelms on various platforms like gfg,codechef,hacker
- Sucessfully completed Data structure essential and levelup course by coding minutes and complete react developer bootcamp by Hitesh Choudhary.
- Member of Google Developers Group Chandigarh and Code Chef CU chapter
